

Bagno Sasso Mobili wins international sustainability prize

26.05.2015

Landquart – Swiss Eco Tap has won the GREEN GOOD DESIGN Award, which honours visionary designers and innovative products that focus on sustainability.

The prize is awarded each year by the [Chicago Athenaeum Museum of Architecture and Design](#) and [The European Centre for Architecture Art Design and Urban Studies](#). [Bagno Sasso Mobili](#) calls the GREEN GOOD DESIGN Award one of the most important sustainability awards.

“This award is one of the most prestigious prizes in our nearly 20-year history,” says CEO Rolf Senti. His company develops energy-efficient and water-efficient bathroom and wellness products, designed to improve water conservation and reduce energy use. In addition to numerous other awards, Bagno Sasso Mobili was awarded the GREEN GOOD DESIGN Award in 2012 for its Ocean Sailor detached wooden bathtub.
